

OTHMAN EL MAJID

Mobile Application Developer | Tech Leader | CTO

Rabat, Morocco • mastermajidosse@gmail.com • linkedin.com/in/othmaneelmajid

Languages: English (Professional) • French (Intermediate)

PROFESSIONAL SUMMARY

Tech leader and mobile application developer with 9+ years of experience shipping 38+ mobile apps and websites that have collectively surpassed 1 million downloads. Track record of turning early-stage startup concepts into production-grade MVPs and scaling them end-to-end — from architecture and development to deployment and team leadership. Expert in cross-platform Flutter development with a sharp focus on performance, stable architecture, and intuitive user experience. Trusted by founders across Morocco, France, Canada, and the United States to lead technical strategy as CTO.

CORE SKILLS

Mobile & Frontend: Flutter, Dart, BLoC pattern, C# (Unity), Java, WordPress, CSS, responsive UI

Backend & Cloud: Firebase (Auth, Firestore, Cloud Functions, Messaging, Performance), AWS, Parse Server, REST APIs (Postman)

Architecture & DevOps: Cross-platform architecture, CI/CD (Codemagic), TDD, Bash automation, Git workflows

Leadership: Tech strategy, product execution, recruitment, team & people management, marketing strategy

PROFESSIONAL EXPERIENCE

Chief Technology Officer — *Coordify* Sept 2025 – Apr 2026

- Transformed an early-stage concept into a fully functional MVP across mobile and web platforms within 5 months.
- Managed the full software development lifecycle: strategic planning, development, testing, and deployment.
- Engineered advanced error handling, robust authentication flows, and data consistency mechanisms to ensure peak application stability.

Lead Flutter Developer — *Justice Data Solutions* — *United States (Remote)* Dec 2022 – Dec 2024

- Led technical execution and cross-platform architecture for complex Flutter mobile applications serving the US legal-tech market.
- Established engineering standards, code review practices, and release processes across the mobile team.

Chief Technology Officer — *Kenjano* — *Rabat, Morocco* Jun 2022 – Oct 2024

- Built and operated mobile applications and games as a service, successfully shipping 8 production apps.
- Architected and launched Gooto, an AI-powered tourism application that guides travelers exploring destinations worldwide.
- Recruited and led a cross-functional engineering team covering mobile, backend, and design.

Chief Technology Officer — *Creaskale* — *France (Remote)* Jan 2023 – Jun 2024

- Oversaw development of a high-engagement, TikTok-style social video app for creator competitions and audience voting.
- Designed the video pipeline, voting system, and real-time engagement features powering the user experience.

Chief Technology Officer — *Moharik* Jul 2022 – Feb 2023

- Designed and engineered a localized crowdfunding and capital-raising platform helping startups secure seed capital.
- Maintained platform availability, performance, and web configurations at www.moharik.ma.

Flutter Developer — *WRK.house* — *Canada (Remote)* Apr 2021 – Dec 2022

- Developed Gladly, a lifestyle ecosystem mobile app centered on custom timed notifications and social image sharing.
- Implemented features that drove daily user re-engagement and a social sharing loop.

Flutter Mobile App Developer — *Farmly* — *United States (Remote)* Feb 2022 – Nov 2022

- Collaborated with a globally distributed team to build a hyper-local gardening and sustainability app.
- Implemented BLoC pattern, robust authentication, interactive charting, full CRUD services, and integrated AWS environments.

Flutter Application Developer — *COURBEVOIE* — *France (Remote)* Jan 2021 – Feb 2022

- Developed Bwhour, a gamified EdTech SaaS mobile app with a point-based reward system.
- Built core infrastructure: Firebase Auth, database management, automated post filtering and search, and custom color detection.
- Automated build, release, and content workflows using Bash scripts, JSON-to-app conversion pipelines, and Codemagic CI/CD.

Mobile & Game App Developer — *Freelance (Fiverr, Mostaqil, and others)* Feb 2017 – Nov 2020

- Delivered 15+ Flutter applications for 30+ global clients, integrating booking engines, Google Maps GPS, PayPal, and Firebase Cloud Functions and triggers.
- Built 8 complete Unity3D mobile games from scratch — handling programming, graphic design, and music composition single-handedly.

EDUCATION

Associate's Degree in Computer Science — *NTIC* 2014 – 2016
